Abstract (en)
[origin: EP0265419A2] The noise protection wall (1) is composed of a solid wall shell (2) and a flexible facing shell (3). In order to be able to erect a highly effective noise protection wall (1) efficiently, the facing shell (3), extending at a distance in front of the wall shell (2), consists of plastic-stem sheets (3a), which can be fixed to backing wires, preferably to a wire grating (3b). <IMAGE>
