Abstract (en)

[origin: EP0271001A2] There is provided a tachograph (60) for motor vehicles, with a cuboid flat housing (26), the front wall (59) of which is assigned the indicator means for the speed, date and time and distance covered and at least one insert slot (21) for the recording carriers used. The diagram disks (23) employed as recording carriers are deflected automatically to their recording position parallel to the front wall (59) by guide means (32, 33) and a transport device (40, 41). <IMAGE>
