Abstract (en)
[origin: EP0274593A1] 1. A ribbon (1) for forming a decorative flower, fancy bow or a like ornamental element, including two outer ribbons (2) of preferably the same width which lie one on top of the other in a substantially loose state but are attached to one another at spaced points (3), and further including at least one draw string (4) passing through in between and between the points (3) of attachment, at the end of the ribbon (1) said draw string being firmly joined to at least one of the outer ribbons (2) but as for the rest being movable relative to the outer ribbons (2), characterized in that at the points (3) of attachment or connection of the outer ribbons (2) provision is made for perforations (6) or punchings (7) traversing them, the superposed edges (8) of said perforations or punchings being welded together.
