Abstract (en)

[origin: US4836565A] The invention relates to a suitcase for arranging golf equipment, of a type convertible to a cart for transporting the equipment over a golf coarse. This suitcase has a covering defining a parallelepipedic volume and is made up of a removable top face (1), a pair of end walls, a pair of side walls and a large bottom face. The covering is rigidly positioned by an internal reinforcing structure (8) that is connected to internal reinforcing walls (9, 10) that are transverse to the cart. A longitudinal standard (15) is fixed to the transverse walls (9, 10). A transverse axle (19) is fixed to the standard (15) and has ends that removable attach two wheels.
