Abstract (en)

The pleasure boat according to the invention comprises a well in its flat bottom (1a) enabling a cylindrical gondola (14) to slide between two positions, one retracted into the hull (1) and the other projecting beneath the said hull, so that the portholes (19) are situated beneath the water line.

Abstract (fr)

L'embarcation de plaisance selon l'invention comporte un puits dans son fond plat (1a) permettant à une nacelle cylindrique (14) de coulisser entre deux positions, l'une escamotée dans la coque (1), l'autre en saillie sous celle-ci, de manière que les hublots (19) soient situés sous la ligne de flottaison.
