Abstract (en)
[origin: EP0277530A1] 1. Sealed profile connection, consisting of two single profiles connected together with positive and non-positive locking, a resilient sealing profile (2) being pressed into receiving grooves (1a, 1b) at the seam between the two single profiles (6, 7), characterised in that a tapered sealing profile (2) having the cross-section of a mushroom has an asymmetrically located projection (4), which ends in a gap (5) between the single profiles (6, 7).
