Abstract (en)

[origin: EP0279134B1] 1. Detergent or rinsing compositions containing an antisoiling and anti-redeposition latex consisting of vinyl copolymers characterized in that these copolymers consist either of copolymers of vinyl acetates with unsaturated carboxylic acids grafted with sulphonic polyesters in which the acetate functions are optionally at least partially saponified, or of copolymers of (meth)acrylic esters grafted with sulphonic polyesters.

Abstract (fr)

Latex antisallissures et antiredéposants utilisables dans le lavage aqueux des matières textiles, constitués soit de copolymères acétates de vinyle acides carboxyliques insaturés éventuellement greffés par des polyesters sulfoniques soit de compolymères (méth)acrylique greffés par des polyesters sulfoniques.
