Abstract (en)
[origin: EP0279256A2] In a paper punch with a positioning member arranged laterally displaceably on its lower part, the positioning member having a stop for the material to be punched is arranged displaceably in a guide rail and is lockable with this in different positions, whilst the guide rail is itself longitudinally displaceable to a limited extent in the lower part of the paper punch and is engageable in the lower part in different positions.
