Abstract (en)

[origin: WO8800996A1] The prefabricated panels consist of an interlocking element (1), which surrounds an insulating core, and of a cover (2), and can be fixed to each other (Fig. 1) and/or to a support structure (Fig. 2; 6). A description is also given of the system for assembling the panel elements in order to provide walls and insulating chambers, in particular for the installation of air conditioning equipment, cooling plant and similar.
