Abstract (en)  
[origin: WO8802094A2] Semi automatic loading system for spring, gas or compressed air weapons with individually diabolo pellets, said system comprising a small cylindrical plastic case (22) in which a diabolo or other form of pellet is inserted, said pellet (21) case (22) being used as an air seal and being ejected during the loading cycle. An internal rim (30) within the case ensures that the pellet is held firmly and cannot fall out or foul the mechanism. A number of said cases can be inserted in a magazine (15).
