Abstract (en)
[origin: EP0281792A2] In the pneumatic dust-removing device for yarn supply holders, a plurality of fans (24) movable past yarn supply holders (bobbins 16) are arranged fixedly relative to one another (common holding web 19) and are driven by means of a single common motor (32) which can also be used at the same time for moving the fans (24) past the holders. <IMAGE>
