Abstract (en)

[origin: EP0281827A2] A tank vehicle for transporting dangerous goods which affords the greatest possible protection against spillage of the goods in the event of transport accidents has a dome inside the contour of the tank and flank protection in the form of semitrailer side plates which extend over the entire length of the sub-frame and outside the area of the tank have a height above the sub-frame of at least the diameter of the buffer plate.
