Abstract (en)

[origin: EP0283377A1] This bushing consists of a conical piece made from semi-rigid material (3), matching externally the shape of the bore (1a) of a tool (1) comprising a hole having a cross-section corresponding to that of the handle (2). The hole of the bushing comprises asperities (3a) intended to lodge in cavities (2a) made in the periphery of the handle. <IMAGE>
