Abstract (en)

[origin: US4844831A] The use of combination granulates consisting of metasilicate and silica in detergent products. These combination granulates can particularly be used as anti-redeposition and antisoiling agents in detergent compositions for washing laundry.

Abstract (fr)

La présente invention concerne l'utilisation en détergence, de granulés constitués de silicote et de silice. Elle concerne plus particulièrement leur utilisation comme agents anti-redéposition et antisalissure dans les compositions détergentes pour le lavage du linge.
