Abstract (en)
The blind consists of a spring-loaded roller (1) for the blind, with the cable reels (4, 5) at its ends. A rigid element (8) is attached to the free end of the blind (6), which controls the tension of the blind, is located inside the roller (1), which also contains a control element (12) in the form of an electric motor. The torsion spring, which is in the form of a spiral spring, is connected at one end to a bearing element (21) on a shaft (18) and at the other to one of the cable reels (5).

Abstract (fr)
Persienne, dans laquelle est prévue une toile (3) déroulable le long de guidages (9, 10), avec comme principale caractéristique que cette persienne présente une construction très compacte et que, lors du déroulement, on peut pourvoir à une tension de plus en plus grande de la toile.
