Abstract (en)

[origin: WO8803376A1] Bristled articles having a bristle mounting (1) with at least one hole (2) on each of its opposing faces for the insertion of single or bundles of artificial bristles (3) in order to furnish the opposing faces with bristles are produced in such a way that the holes in the bristle mounting (1) connect. The bristles (3) inserted from both sides of the bristle mounting (1) are melted at the end which faces the bristle mounting (1) and are inserted into the opposing holes until the melted substances have come in contact.

Abstract (fr)

Articles à soies comportant un support (1) de soies, lequel possède sur des faces opposées au moins un trou (2) destiné à recevoir des soies artificielles (3) individuelles ou réunies en touffes pour former une garniture de soies sur les faces opposées. On réalise lesdits articles en positionnant les trous dans le support (1) de manière telle qu'ils se confondent, que les soies (3) présentées des deux côtés du support (1) soient fondues au niveau de leurs extrémités adjacentes audit support (1) et soient introduites dans les trous opposés jusqu'à l'intérieur des trous.
