

Title (en)

High strength wet webs for the production of paper and process for producing paper making fiber webs having wet web strength.

Title (de)

Feuchte Bahnen hoher Festigkeit für die Herstellung von Papier und Verfahren zur Papierherstellung durch die Herstellung von nassfesten Faserbahnen.

Title (fr)

Feuilles humides ayant une résistance élevée pour la fabrication de papier et procédé de fabrication de papier en produisant des feuilles fibreuses ayant une résistance à l'état humide.

Abstract (en)

Papermaking fibers treated with N-chloroamide polymers and formed into wet webs have enhanced strength while wet and facilitate the papermaking process.
