Abstract (en)  
A shearleg crane has a shearleg (15) which is pivotally mounted on a carriage (17) movable over the deck (20) of a vessel (10), a further carriage (22) carrying winching units (23, 24) for the load hoist tackle (25) and shearleg support tackle (26), and an intermediate strut (30) which is engageable between the two carriages to maintain their separation.
