Abstract (en)
[origin: JPS6480692A] PURPOSE: To prevent rain water or the like from coming in by a ready and inexpensive device by guiding pulling straps delivered from a strap winder drum by three sets of strap guide elements, and guiding them to a winder device via strap opening part formed within an outer sheath. CONSTITUTION: A first to third strap guide elements 10, 11, 13 are arranged within a shutter case to subsequently be permitted to guide pulling straps 9 delivered from a strap winder drum 8. Furthermore, the straps 9 are introduced to a strap winder device 17 in a manner being pieced through between a window upper frame part 1 and a covering part 2 via a strap opening part 3a formed within the outer sheath 3 of a window upper frame part 1.
