Abstract (en)
[origin: EP0292910A2] Physically stable, liquid, aqueous non-scratching hard surface cleaning compositions are provided and include a fatty acid or fatty acid soap, a non-soap anionic surfactant, a nonionic surfactant, electrolyte, and, as an abrasive, polymer particles having a hardness not greater than homopolymeric methyl methacrylate, and a particle size ranging from about 10 to 150 microns. These compositions can be safely used to clean, without scratching or damaging, all types of hard surfaces, including glass, plastics, enamels, and the like.
