Abstract (en)
[origin: WO8805217A1] A flex harness (20) and a printed wiring board are provided (18) with a plurality of bumps (66) on each line (62) so that, upon mating between the flex harness and the printed wiring board, the bumps provide redundant connections therebetween.

Abstract (fr)
Un faisceau de câbles souple (20) et une carte de câblage imprimée (18) présentent plusieurs protubérances (66) placées sur chaque ligne (62) de sorte que, lors de l'appariage entre le faisceau de câbles souple et la carte de câblage imprimée, les protubérances assurent des connexions redondantes entre eux.
