Abstract (en)

The present invention relates to electrically operated pliers for twisting and cutting iron wire lengths and the like, which comprise a driving assembly (1) which can be selectively operated for advancing an iron wire length and rotating a pair of jaws (22) for holding and cutting the iron wire length (14). The jaw (22) pair is rotatably supported by a pliers body (21), provided with driving means for opening and closing the jaws (22).
