Abstract (en)

The laundry washing and/or drying machine with a drum closed by a door locked in the closing position by means of a locking system, is characterised in that, in the laundry drum (6), the door (7) performs two functions, according to its positions, namely that of closing the orifice (9) of this drum (6) when it is in the closing position, and that of preventing the drum (6) from rotating rearwards when it is in the opening position, and the locking system (15) of this door (7) performs three functions, according to its positions, namely that of blocking the closing of the door (7) when it is in the closing position, that of preventing the laundry drum (6) from rotating forwards and that of preventing the laundry dryer (1) from being put into operation when it is in the opening position. <IMAGE>
