Abstract (en)

1. An overflow protection arrangement for swimming pools (7) comprising a protection wall (1) which stands up above a water overflow edge (6) of the rim (2) of the pool at locations with a raised water level, and a water drain (8) in the edge portion around the pool, characterised in that the protection wall (1) with the water overflow edge (6) forms a drainage gap (5) which throttles the overflow of water when the water level is raised and which is communicated with the water drain (8).

Abstract (de)

Überlaufschutzwand (1) für Schwimmbecken, die an Stellen, wo erhöhter Wasserspiegel auftritt, insbesondere an der Bogenaußenseite von Strömungskanälen als über das Beckenumgangsniveau (6) reichende Schutzwand vorgesehen ist, welche den durch erhöhten Wasserspiegel bedingten Wasserüberlauf drosselt. Diese Wand (1) kann auch beweglich und/oder einstellbar ausgeführt werden.
