Abstract (en)  
[origin: EP0297080A1] 1. An overflow protection arrangement for swimming pools (7) comprising a protection wall (1) which stands up above a water overflow edge (6) of the rim (2) of the pool at locations with a raised water level, and a water drain (8) in the edge portion around the pool, characterised in that the protection wall (1) with the water overflow edge (6) forms a drainage gap (5) which throttles the overflow of water when the water level is raised and which is communicated with the water drain (8).
