Abstract (en)
A sailing-boat hull includes a bottom (C) provided with a projecting keel (12) of U-shaped cross-section which is connected laterally to the side (F) by means of two longitudinal channels (14) of rounded section so as to define, with the sides (F), two longitudinal side portions (16) of rounded section. The rounded side portions (16) of the bottom (C) are situated at a higher level than the keel (12).
