Abstract (en)

Stern mounting structure for rudder, screw propeller ,and shafting, suitable for ships of any kind and use arranged abaft the screw propeller that substantially comprises an integral to the hull, foil shaped post which sustains the rudderstock and an integral to the post boss which sustains the rudder heel and houses the last shafting bearing . Where a controllable pitch propeller (CPP ) is used, the post houses the most of the pitch control hydraulic devices in order to provide an apparatus wherein there are no rotating members under hydraulic pressure .
