Abstract (en)
[origin: EP0298947A2] In one of its vertical narrow side walls (S) in the region of a narrow side edge, the device has a housing with a pull strap (2) which is self-winding under the effect of a spring and is provided at its free end with a handle (3) which grips closely adjacently over the narrow side edge and is anchored swivellably and detachably at its free end in a catch recess (4) of the horizontal upper narrow side wall (S') of the suitcase.
