Abstract (en)

[origin: EP0299845A1] The present invention relates to the packaging of soft cheese or soft cheese specialities and, more particularly, cheeses or soft cheese specialities with a surface mould. Packaging for cheese (7) or a soft cheese speciality, particularly cheese with a surface mould, which permits the circulation of air around the cheese (7) and the exchange of water vapour with the outside, which comprises a box (1) which is usually closed by sealing, consisting of a leaktight material and comprising at least one window (2) covered with a membrane (3) having selective permeability, permitting the entry of air coming from the outside, in a controlled quantity, this box being composed of a lower element (4) and of a lid (5) intended to close the package, including after the first opening, an interface plate (6) placed in the package ensuring aeration of the lower face of the cheese and the absorption of part of the moisture of the product. <IMAGE>
