Abstract (en)
[origin: EP0303278A1] Tool (10) for installing a ventilation filter (24) in an opening (26) present in the crankcase (28) of a passenger car is characterised by a pot-like housing with at least partially present housing wall (12) and housing base (14), and by a plane surface (16) of the free edge of the housing wall (12) directed away from the housing base (14), and by a parallel alignment of the housing base (14) relative to the surface (16) of the free edge of the housing wall (12), it being possible for the pot-like housing to be placed over the ventilation filter (24) and to be laid with its free edge against the collar (30) of the ventilation filter (24). <IMAGE>
