Abstract (en)

[origin: EP0306129A2] In an extruded section window frame, of for example UPVC, an arched top is provided by corner glazing bead elements (14). The window section has a rear stop element (9) and a forward hook section retainer groove (15), the latter interengaging with a hook cross section (19) of each straight outer edge; (17, 18) of the corner glazing bead element (14). The element (14) has a chamfered arcuate edge portion (20) of part elliptical profile. Rear corner elements (23) having a similar profile may optionally be inserted in the rear of the frame (11).
