Abstract (en)
[origin: EP0308354A1] A locking fitting (1), such as a lock, espagnolette lock or the like, comprising a housing (2) fixed to a face plate (3) and containing a control mechanism (4) equipped with a nut (8) and/or with a key element (11) for actuating more particularly a latch (5) formed from a projecting body (17) and from an axle (19) seated in the housing (2). This latch (5) is equipped, on the one hand, with control means (16) consisting of a slide (23) which is mounted freely rotatable on the axle (19) and on which act respectively a control member (12) connected to the key element (11) and a control member (26) fixed to the nut (8). The latch (5) is equipped, on the one hand, with guide and positioning means (14) likewise mounted on the axle (19) and interacting with the cover plates (7) of the housing (2) in order to guarantee simultaneously the guidance of said latch (5) and of the slide (23) inside this housing (2). <IMAGE>
