Abstract (en)  
[origin: EP0308575A1] A mixer with a swivel-mounted filling device which can be actuated via a driving unit actuatable by the tractor unit of the mixer is characterised in that a subregion of the side wall (3) of the mixer (1) is designed as a paddle (4, 5) which can be swivelled about a swivelling axis (6a, b) provided in the bottom region (2) of the mixer (1), from a filling position, in which it completes the side wall of the mixer, into a loading position, in which it takes up material to be introduced, situated outside the mixer (1).
