Abstract (en)
[origin: EP0309696A2] The desk has a frame which has two lateral cheek elements. The two cheek elements are connected to each other by means of a cross-beam extending below the table top. The cross-beam is constructed as a cable duct which is open towards the underside of the table top. At its end faces, the cross-beam has flanges which extend transversely to the longitudinal extension of said cross-beam and are screwed to the cheek elements. <IMAGE>
