Abstract (en)

[origin: EP0314318A2] A multicell lead-acid battery (10) having a low profile, unitary combination cast-on-strap and intercell connector (26, 28, 30, 32, 34) configured relative to other components of the battery to be resistant to vibrational forces. A method for forming the connector features a heat sealing step to provide a tight mechanical fit.
