Abstract (en)
Process for lubricating the surface of metal pieces made of copper or of iron- or copper-based alloys, intended to be deformed when cold or with heating, which process comprises a traditional surface preparation and the application of at least one lanthanide halide.

Abstract (fr)
Procédé de lubrification de la surface de pièces métalliques, en cuivre ou en alliages à base de fer ou de cuivre, destinées à être déformées à froid ou à chaud, lequel procédé comprend une préparation de surface traditionnelle et l'application d'au moins un halogénure de lanthanide.
