Abstract (en)
The various electromagnets (18) are distributed in groups of three. The polar pieces (21) of the electromagnets (18a) interact with the upper indicator element (8) whose toothed ring (22) is arranged so that the polar pieces (21) cause each one of the teeth (22) to advance by a third of a step when the electromagnet receives a pulse. <IMAGE>

Abstract (fr)
Les différents électro-aimants (18) sont répartis par groupes de trois. Les pièces polaires (21) des électro-aimants (18a) coopèrent avec l'organe indicateur supérieur (8) dont l'anneau denté (22) est agencé de façon les pièces polaires (21) fassent avancer chacune une des dents (22) d'un tiers de pas lorsque l'électro-aimant reçoit une impulsions.
