Abstract (en)

[origin: EP0318059A1] An air cleaner (47) having a main casing (309) fixed to a suction port (305) of a carburettor (49), a cap casing (319) removably fitted to said main casing (309) and a filter made (315) of porous material which is held between the main casing (309) and the cap (319). The air cleaner (47) comprises a space portion (389) provided in one of said main casing (309) and said cap casing (319) for receiving the filter (315). Furthermore, support legs (331, 333) are provided which project inside the space portion (329) for being inserted into fitting holes (335) which pass through the filter (315).
