Abstract (en)
[origin: EP0320735A2] The manually guided mobile cleaning machine has a cleaning tool (3), which comes into engagement with the floor and is attached between rear and front sets of running rollers (5; 6), mounted on the machine frame (1). The rear set of running rollers (5) is driven and the front set of running rollers (6) can be adjusted in its alignment in a controlled manner by the operator for steering the cleaning machine guided by means of a guiding bar (7). <IMAGE>
