Abstract (en)

[origin: EP0323354A1] The invention relates to a package for packaging at least one object, of the type comprising a package body in a semi-rigid material, such as cardboard or corrugated cardboard, and a film (14) of a retractable plastic material which is integral with the said body and is intended, after retraction, to hold the said object in position therein. In this package, the film (14) of retractable plastic material extends over the base parallel to two walls (4) or to the flaps (6) which line them, the said film being glued down against the inner face of the base and locked in the glued position by pinching between the base and the flaps lining the latter. <IMAGE>
