Abstract (en)  
[origin: EP0325040A1] A two-piece dust control mat (10) having an upper pile fabric portion (12) and a lower rubber-like base portion (14). The under surface of the upper portion and the upper surface of the lower portion are treated to increase the friction resistance therebetween and in the preferred form the treatment consists of providing interlocking cleat members (22;24).
