Abstract (en)

A sealable dispenser, provided with overturning cover (2), for containing rollers (6) of paper or the like material impregnated with a treatment liquid, and for dispensing lengths (106) of ribbon unwound from said roller (6). The said dispenser comprises a box (1) of impervious comparatively stiff material, provided with an overturning cover (2). The mouth of the box is sealed by a removable sealing sheet (5). The front edge of the overturning cover (2) is provided with sidewise disposed abutment means (3) co-operating with means (4) on the front upper edge of the box (1), for defining a slit (7) for the passage of the paper ribbon (106) being unwound from said roll (6).
