Abstract (en)

[origin: EP0327452A1] This relates to a dispenser for a cabling accessory (14) for crimping the pre-stripped end (10) of the conductive core (11) of an electrical wire conductor (12). <??>This dispenser comprises two handles (20, 22) articulated to each other, one forming a magazine by way of a loader (21) and having a cradle (67) suitable for receiving such a cabling accessory (14), the other forming a tool and having, in line with the aforementioned cradle (67), a crimping insert (25) capable of impressing, on a cabling accessory present between these handles (20, 22), at least one local crimping deformation when these handles are moved closer together. <??>Application especially to cabling ferrules. <IMAGE>
