Abstract (en)

[origin: EP0327518A1] The disclosure relates to a method for recycling petrol vapour from a petrol tank to a transport vehicle, in which method the filler pipe (5) extending down into the petrol tank (1) is provided with a number of holes (7) in that portion of the filler pipe (5) which is located within the petrol tank (1), an additional pipe (8) being inserted into the filler pipe (5) to form a new filler pipe (8) within the earlier filler pipe (5), and a petrol vapour recycling unit (10) being applied on the earlier filler pipe (5) and the new filler pipe (8), whereby petrol vapour will, during filling of the petrol tank (1), flow therefrom through the holes (7) provided in the earlier filler pipe (5) into a through the space between the earlier filler pipe (5) and the new filler pipe (8) to the petrol vapour recycling unit (10).
