Abstract (en)
[origin: WO8802589A1] An audio-visual recording system having a booth (10) containing a video camera (26) with a microphone (30); a pair of video display screens (18), one within and one mounted on the outside of said booth; and timing means (102) operatively connected to said camera (26) so as to operate it for a predetermined period. Means (76) are provided for rejecting video cassettes not having a signal incorporated thereon.
