Abstract (en)

Process for fitting a false ceiling below the upper supporting structure (2) in a room comprising the steps of fitting supporting members (1, 4) onto opposite walls (3) of the room, connecting spaced apart sectional beams (5) each having a web (5 sec) and at least one flange (5 min) perpendicular thereto, with their ends to said supporting members by placing said beams with the flanges (5 min) resting freely on the supporting members (1, 4), so that the web (5 sec) of each sectional beam hangs down past the supporting members, while the end parts of the web are accommodated in a space within or between the supporting members (4).
