Abstract (en)
[origin: EP0331058A1] The invention relates to flocked yarns (1, 11) comprising a carrier thread (2) with an adhesive sheath (3) and surrounding flock (4) which is a mixed flock (5, 6; 15, 16, 17) and preferably consists of polyamide and polyester. The polyester flock ensures that the flocked yarn has a high light stability. To improve the performance characteristics, the polyamide and polyester flock may additionally contain a portion of aramid flock. <IMAGE>
