Abstract (en)

[origin: JPH01267791A] PURPOSE: To save occupancy place and to eject a cassette and an article at a common place by providing the inserting/ejecting common device of the object and the article in the single place. CONSTITUTION: The device 20 used for ejecting a bundle of paper money 2 and for containing and moving the cassette 1 is fitted to a carrier 8 being drawing possible from a safe inside 4 by right side and left side flanges. In order to permit the bundle of paper money 2 and the cassette 1 to pass through an opening port 12 which is made to be small by a reason in safety and to be taken at once by a cashier, the bundle of paper money 2 and the cassette 1 are carried immediately under the opening port 12 with the shaking possible plate-shaped mechanism 29 of the device 20 and carried to the opening port. The opening port 12 is open during ejection. Thus, the place is reduced and the cassette 1 and the bundle of paper money 2 are ejected in the common place.
