Abstract (en)

[origin: EP0332072A2] The film package for objects of cuboid shape, in which the film parts are welded by means of heat-sealing, is fitted with a tear-off aid in the form of an additional, expediently arranged label which prevents the heat-sealing at least at one desired point. By means of several label regions, located one above the other, and oblique printing, the certainty of film removal is additionally increased. The package can be used for objects of all types, the complete removal of all packaging parts being necessary, e.g. for tape cassettes, in particular for magnetic tape cassettes.
