Abstract (en)
The door comprises two main metal plates (1,2) with a layer of insulating material (13) between them. Their edges are folded over inwards, and they are joined together via snap connections in a profiled component (18) in between. Each edge of the door has an L-shaped metal stiffening member (6) with outwards extending flange, engaging in one main plate edge, while its body (19) snaps into engagement with the profiled component.

Abstract (de)
Eine Tür mit zwei Metallhautplatten (1, 2) ist mit einem L-förmigen Versteifungsprofil (6) aus Metall versteift und die Hautplatten (1, 2) und das Versteifungsprofil (6) sind miteinander mittels eines Verbindungsprofils (18) mit Schnappwirkung verbunden.
